**FRIDAY, October 17**

South Coast Botanic Garden

26300 Crenshaw Blvd

Palos Verdes Peninsula, CA 90274

**General Meeting Starting at 8 PM**

Our October Guest Speaker is Dr. Norito Hasegawa.

Norito Hasegawa is the owner of Paphanatics Unlimited, located in Santa Ana, California. Paphanatics has been specializing in Paphiopedilums since 1975. Norito has been collecting, growing, and studying orchids for over 30 years. His involvement has been at many levels as a hobbyist, author, and commercial grower. He has had Harold Koopowitz as a partner at Paphanatics for over 20 years. Norito is co-author, with Harold Koopowitz, of the book, “Novelty Slipper Orchids.”

He is also a former trustee of the American Orchid Society and currently serves on the Board of Directors of the Orchid Digest Corporation. He travels internationally to keep orchid fanatics up to date on Paphiopedilums happenings.

Norito was born in Los Angeles, and still lives in Southern California with his wife, Joyce, and their three children. He created Paphanatics and wrote his book while working as a dentist in Santa Ana.

During this meeting Norito will be speaking about what's new in the world of Paphiopedilums.

**Orchid Care Session at 7:00 PM**

Culture Session: Virus testing kits and their use in your orchid collection by Dave DeYoung.

This month's raffle table will be provided by Paphanatics.

Norito will also be bringing some plants for sale at our meeting.

## President's Message

Our society has had a busy month hosting an excellent Fall Show; the energy and atmosphere at the South Coast Botanic Garden was beyond expectations. If you didn't participate in this show, you missed an opportunity that occurs only twice a year. You will be amazed how easy it is to make true and lasting friendships when everyone pulls together to accomplish a common goal. There is an "expensive" word that describes this relationship, and that is synergism (total benefits are greater than the sum of the individual effects).

Our board has made some significant decisions. We approved Christine Hough as our treasurer replacing Jim Rowley. Jim has made some strategic family decisions that will be taking more of his spendable time. We knew it was going to be difficult to replace Jim; however, Christine has the potential qualifications to carry on where Jim will leave off at the end of the month. Christine, welcome to our family and we look forward to years of pleasant cooperation.

Our board also approved a new secretary, Saul Miller, replacing Polly Kinsinger. Saul has served the board before in another position, and his background and experience will complement his new post. Thank you Polly, for your work as our secretary when volunteers were difficult to recruit. Polly has been, and continues to be, a stalwart member in numerous areas of need in our society, including being our judging expert and a vital member of our show staff.

I thank each of you who have shown an interest in my health. My doctor and my wife continue to express that I must take it easy for another month. Since I don't feel that bad, I am having a difficult time following their orders.

Until we meet again on October 17, may we all be pleased of the opportunities that our society provides.

Tom Renger

## Annual Fall Orchid Show and Sale Fall Orchid Show and Sale Review

What a great Fall Show we had! The weather was great, the orchids were beautiful and the show was well attended. Everything ran smoothly, thanks to the hard work of our committee chairs and everyone who came to help.

**Marilyn Hill and Sue Estes** recruited and organized the hosts and hostesses. They did a good job of keeping an eye on the showroom and answering questions the public might have about our plants and our society, as well staffing the plant hotel. A special thank you to Sue for doing double duty at the show in Marilyn's absence due to illness.

**Ron Henry** organized the set-up of the show, which involved bringing all of our show supplies from storage, putting up shade cloth and installing additional lighting in the auditorium. He and his helpers also had the responsibility of putting everything back into storage after the show.

**Joann Green, Kayo Libiano, Marcia Bergen and May Dobratz** kept the kitchen organized. Everyone was well-fed and ready to work. Thank you to all the wonderful cooks who brought in food.

**Bob Streeter** recruited excellent judges. He and **Polly Kinsinger** organized the plants for judging and made sure every plant was in the proper judging category.

**Ann Rogers and Sharon Gage** efficiently registered all the plants for judging.

**Eva Renger, Edith Robinson and Laura Ciampaglia** were at the Membership and Information table to welcome our guests, answer questions about our meeting, and to sign up new members. Thanks to their efforts we gained 17 new memberships.

**Don Goss**, our web-master and publicity chairman, designed the posters, put ads in newspapers, and kept the website up to date regarding information about the show. Don also took on the responsibility of running the raffle.

**The Featured Speakers** did an excellent job of preparing and giving talks on orchid culture. I'm sure that their knowledge and enthusiasm gave many novice growers the confidence to grow orchids and the more experienced to try new growing techniques. Thank you **Nick Braemer** for organizing the speakers.

And of course a big thank you to everyone who took the time to clean up their blooming orchids and bring them in for judging in our show. There were not as many orchids in bloom the weekend of the show so every plant was even more appreciated. Congratulations to all the winners!

The Fall Show is over and planning for the Spring Show has already begun. Mark your calendar for March 7<sup>th</sup> and 8<sup>th</sup> at the Torrance Cultural Arts Center.

**Marla Corey, Show Chair**

## Trading, My Favorite Way of Acquiring Orchids, By Nick Braemer

There are many ways of enlarging your orchid collection but none are more satisfying to me than trading. In our Society we do none of that. I know of no Society where this is common practice and I have often wondered why.

I am a frequent reader and occasional poster on the Orchid Forum of the Garden Web. The forum has an exchange section where members can list plants they have to offer for trade and also list plants they wish to acquire. This section used to be very active, 4 to 5 years ago I think I counted 275 odd plants I acquired this way. It is not very active now, different people, different schedules, lifestyles etc. but the concept is still a good one and I'd like to try one more time to see if we can get some trading going in our group.

In a corner of the newsletter I would like to see people post either :

HAVE plant XYZ to trade or  
WANT to trade for plant XYZ

The plants should be described, email addresses should be given, and people can work out a trade during the month, exchange plants at the meeting in the 'Silent Auction' room. The Society should not be involved and all issues should be strictly between the 2 people making the trade. I don't think money should change hands. Let me get the ball rolling by offering a couple of plants and lets see if there is a response. Either call or mail me if you are interested in these 2 plants.

The way I see it, it's a win/win situation, I give up 2 divisions of plants I have the parents of and will not miss and hopefully get 2 plants I don't have now which also should not be missed by the other person. Since California is \$15 Billion short and needs to hold one to every Shekel, Ahnold plans to conduct future business in a similar manner. Maybe Taco shells for Rice?

Good growing, Nick

## Orchid Trader

**Tom Renger** has (1) Cattleya Labiata Alba (2) Blc. Port Of Paradise 'Glennyries Green Giant' FCC/AOS 1973 (3) Phal Claire De Lune 'Edgar Van Belle' AM/AOS 1993  
[tomrenger@roadrunner.com](mailto:tomrenger@roadrunner.com) 310-316-0707

**Nick Braemer** has (1) Stanhopea grandiflora, 2 leafless back bulbs plus 3 front end bulbs with leaves. (2) Miltonia clowessii x Milt. Golden Showers 2 leafless back bulbs and 3 front end bulbs with leaves, one spike. I won Best Oncidium of Show at the New Otani with this plant a number of years ago.

Would like any orchid I don't have that can live outside all year long. Both of the above have been outside all the time.
