**Our October 16, 2015
Guest Speaker will be
James Rose
“The Orchids of
Madagascar”**

In the early 1970's James and Lauris Rose began their orchid careers in the commercial realm, and eventually purchased their own nursery, Cal Orchid, in 1987. This nursery, located in Santa Barbara, California has grown to 25,000 square feet of intermediate temperature controlled greenhouse as well as an additional 25,000 square feet of saran-covered shade area. The Roses have always been active in the orchid world, traveling for shows, sales, or lecturing. Whenever possible, they are generous with their time, personally visiting with customers about orchid culture. James' presentation will be on The Orchids of Madagascar.

James will give a culture session to share his invaluable experience growing the plants we love. He will also provide the plant table, which is usually outstanding.

October President's Message

We had a great Fall Show at the Botanic Gardens in September and hope that many of you were able to make it. We had a great group of volunteers that helped make it a success. It takes many people to make a group or club successful. A small core of us cannot do it all. Please continue to support the society as you can—tell your friends, pass out flyers to our shows, come to our meetings, buy raffle tickets, “friend” us on our Facebook page, and give us your great ideas. We are always looking for new ways to reach new people to keep the society viable and attractive to a diverse group. Guests are always welcome at our meetings to “try us out,” so please invite people you may know who might be interested. Our meeting this month should be another good one with a great plant table, so plan to attend. This will be the last month to get your renewals in before the membership directory is published. You can expect to see the new directory at the November meeting. New membership cards are also available, so pick yours up at the next meeting.
